

Incoming Student Immunization Requirements

MMR (Measles, Mumps, Rubella) – QUANTITATIVE IgG/IgM titers that reflect serologic proof of immunity for Measles, Mumps and Rubella. *Lab results submitted must reflect numeric antibody levels.*

For Negative Titer Results: Comprehensive (childhood) immunization records, including two (2) doses of MMR vaccine or two (2) doses of Measles, two (2) doses of Mumps and one (1) dose of Rubella, PLUS proof of recent MMR booster must accompany lab results. If childhood immunization records are unavailable, proof of two-dose reimmunization must accompany lab results.

Varicella – QUANTITATIVE IgG/IgM titer that reflects serologic proof of immunity for Varicella. *Lab results submitted must reflect numeric antibody level.*

For Negative Titer Results: Proof of two-dose reimmunization must accompany lab results.

Hepatitis B – QUANTITATIVE Hepatitis B Surface Antibody titer that reflects serologic proof of immunity for Hepatitis B. If negative, complete a second Hepatitis B series (three (3) doses of Hepatitis B vaccine or two (2) doses of Heplisav-B vaccine) followed by a repeat Quantitative Surface Antibody titer. If Surface Antibody titer is negative after secondary series, additional testing including Hepatitis B Surface Antigen and Core Antibody should be performed. *Lab results submitted must reflect numeric antibody level.*

Tetanus, Diphtheria and Pertussis – One (1) dose of adult Tdap vaccine. If last Tdap is more than 10 years old, new vaccination is required. *Immunization record must be submitted.*

COVID-19 – Proof of initial two-dose series PLUS one booster is required. *Immunization record must be submitted.*

Influenza – One (1) dose required annually no sooner than August 1st and no later than October 31st. *Immunization record must be submitted.*
